

MY THERAPY HOUSE CHARTER

COMMON GOAL: We work together with families to understand children and support their development.

GROUND RULES: We care about people and personalise our services so they make a difference and make sense to the children and families we work with.

PROCESS: We take time to listen to the families' needs and concerns and understand what each family is wanting for their child. We work as an integrated team.

TEAM CULTURE: We care about, value and appreciate each other. We are proud of who we are and how we do it.

HOW WE DO THIS: By checking in with each other on a daily basis and supporting each other; by communicating openly with each other, the children and families we work with; by caring and taking pride in what we do and how we do it!
