

Is This an Emergency?

How do we know when something is an emergency?

There are three questions that we can ask ourselves to find out:

1

Is someone badly injured or in need of help?

2

Is your life or somebody else's life in danger?

3

Is there a serious accident or crime taking place?

If your answer 'yes' to any of these, then it is an emergency. This is when you need to dial '000' and ask for help.
